

## About

Coil is revolutionizing the electrical industry through innovation, enabling the future of renewable energy. We partner with OEMs, channel partners, and other service providers to identify, install, and provide the best electrical solutions.

Coil serves thousands of customers and businesses nationally through its two business units: Coil Electric, a premier, full service electrical installer specializing in new energy installations, and COIL iQ, a software management tool for Electricians & the Renewables Industry.

## Certified

Coil is the certified installer for many top EV manufacturers and OEMs in the industry.
